

Because of the EU and Belgium regulations we need a module that enables us to attached one or more files to one or more mail types send by PrestaShop.

An attachment means: word files (doc, docx), excel files (xls, xlsx), images (jpg, jpeg, png), archives (zip, rar, tar.gz), pdf and plain tekst (txt).

For each mail type (for example order confirmation mail, account creation mail,..) the module enables us to select one or more attachments (no limit) that should be attached to that specific mail. This can be different for each mail type.

Besides the main functionality, the module enables us to change the footer of the mails (this is general for all mails and not specific for each mail type).

(A) Form where we can enable or disable the custom footer and specify the html code for it. When disabled, the default footer of PrestaShop is back enabled

(B) Table where we can add, edit or delete files

ID	Name	File Type	Size	# Mails
1	File name A	.pdf	240kb	1

(C) For each mail, select the files that should be included as an attachment

	File name a	File name b	File Name C	File Name D	File Name E	File Name F	File Name G
<input type="checkbox"/> E-mailsjablonen	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
